

Powerful BESS Battery Energy Storage System 50-500KW Pcs Power and 51.2V 105AH Module for High Capacity

Our Product Introduction

for more products please visit us on batteriesback-up.com

Basic Information

- Place of Origin: China
- Brand Name: QIYUAN
- Certification: UN38.3, IEC
- Model Number: GES-215KWH
- Minimum Order Quantity: 1
- Packaging Details: Container
- Supply Ability: 200 Units/Month

Product Specification

- Communication Interface: RS485, Ethernet
- Dimensions: Varies Depending On Model
- Hvac: Yes
- Module: 51.2V 105AH
- Capacity: Varies Depending On Model
- Shipping: Battery In The Container
- Operating Temperature: -10~50 Degrees Celsius
- Weight: Varies Depending On Model
- Highlight: **51.2V BESS Battery Energy Storage System,
Powerful BESS Battery Energy Storage System,
105AH BESS Battery Energy Storage System**

Product Description:

The BESS Battery Energy Storage System is an innovative solution for storing and managing energy efficiently. This cutting-edge ESS (Energy Storage System) offers a range of models with varying capacities and dimensions to suit different energy storage needs. One of the key features of the BESS Battery Energy Storage System is its versatility in capacity, allowing customers to choose the model that best fits their energy storage requirements. Whether for residential, commercial, or industrial use, there is a BESS model to meet the needs of every user.

With dimensions that vary depending on the model chosen, the BESS Battery Energy Storage System can be easily integrated into different spaces, making it a flexible solution for a wide range of applications. Whether you have limited space or require a larger energy storage system, the BESS product line has options to accommodate your needs.

When it comes to shipping, the BESS Battery Energy Storage System is designed to be conveniently transported in a container, ensuring easy handling and delivery. This feature simplifies the logistics of receiving and installing the energy storage system, making the process efficient and cost-effective for customers.

Customers can have peace of mind knowing that the BESS Battery Energy Storage System is backed by a warranty that varies depending on the model chosen. This warranty provides assurance of the product's quality and reliability, giving customers confidence in their investment in an energy storage solution.

The BESS Battery Energy Storage System is designed to operate within a temperature range of -10 to 50 degrees Celsius, making it suitable for use in various environmental conditions. Whether in extreme cold or heat, the BESS system is built to withstand the challenges of different climates, ensuring consistent performance and reliability.

Experience the convenience and efficiency of an All In One Energy Storage System with the BESS Battery Energy Storage System. With its customizable capacity, versatile dimensions, container shipping, warranty options, and wide operating temperature range, the BESS product line offers a comprehensive solution for all your energy storage needs. Choose the BESS Battery Energy Storage System for a reliable and efficient energy storage solution that meets your requirements.

Features:

Product Name: BESS Battery Energy Storage System
Pcs Power: 50-500KW
Hvac: Yes
Technology: Lithium-ion Battery
Operating Temperature: -10~50 Degrees Celsius
Shipping: Battery In The Container

Technical Parameters:

| | |
|-----------------------|---------------------------|
| Operating Temperature | -10~50 Degrees Celsius |
| Dimensions | Varies Depending On Model |
| HVAC | Yes |
| Technology | Lithium-ion Battery |
| Battery | LiFePo4 - 100Ah |
| Capacity | Varies Depending On Model |
| Rated Grid Voltage | AC400V |
| Weight | Varies Depending On Model |
| Shipping | Battery In The Container |
| Warranty | Varies Depending On Model |

Applications:

QIYUAN's GES-215KWH Battery Energy Storage System is a versatile solution designed for various product application occasions and scenarios. With a focus on reliability, efficiency, and performance, this system is suitable for a wide range of industrial and commercial battery storage system needs.

The GES-215KWH is ideal for Industrial Battery Storage Systems, offering a robust and dependable energy storage solution for industrial facilities, warehouses, manufacturing plants, and more. Its certification in UN38.3 and IEC ensures compliance with industry standards and regulations, providing peace of mind for users.

For Commercial Battery Storage Systems, the GES-215KWH is a top choice due to its high-quality LiFePo4 battery with a capacity of 100Ah. This system is perfect for commercial buildings, shopping centers, office complexes, and other commercial settings that require reliable and efficient energy storage solutions.

Manufactured in China, the GES-215KWH boasts a sturdy construction and reliable performance in a wide range of operating temperatures from -10 to 50 degrees Celsius. Its communication interfaces, including RS485 and Ethernet, enable seamless integration with existing systems for enhanced monitoring and control.

With a minimum order quantity of 1 and packaging details in containers, the GES-215KWH offers flexibility and convenience for customers. QIYUAN's supply ability of 200 units per month ensures timely delivery to meet varying demand levels.

Customers can also benefit from the warranty that varies depending on the model, providing added assurance of product quality and longevity. The dimensions of the GES-215KWH vary depending on the model chosen, offering customization options to suit specific space requirements.

Customization:

Product Customization Services for the BESS Battery Energy Storage System: -----
Brand Name: QIYUAN
Model Number: GES-215KWH
Place of Origin: China
Certification: UN38.3, IEC
Minimum Order Quantity: 1
Packaging Details: Container
Supply Ability: 200 Units/Month
Warranty: Varies Depending On Model
Pcs Power: 50-500KW
Dimensions: Varies Depending On Model
Technology: Lithium-ion Battery
Rated Grid Voltage: AC400V
Keywords: Commercial Battery Storage System, Energy Storage Systems, Commercial Energy Storage Systems

Support and Services:

The Product Technical Support and Services for the BESS Battery Energy Storage System include: -----
- Initial system setup and configuration assistance
- Troubleshooting and resolution of technical issues
- Software updates and maintenance
- Remote monitoring and diagnostics
- On-site support and maintenance services
- Training and documentation for users
- Warranty and service agreements

Packing and Shipping:

Product Packaging: -----
The BESS Battery Energy Storage System is carefully packaged to ensure safe transportation and delivery. Each component is securely wrapped and cushioned to prevent any damage during handling and shipping.
Shipping:
Orders of the BESS Battery Energy Storage System are typically shipped within 1-2 business days of purchase confirmation. We partner with reliable shipping carriers to ensure timely delivery to our customers. Tracking information will be provided once the order has been dispatched.
