

-10-50 Degrees Celsius BESS Battery Energy Storage System With And Communication Interface RS485

Our Product Introduction

for more products please visit us on batteriesback-up.com

Basic Information

- Place of Origin: China
- Brand Name: QIYUAN
- Certification: UN38.3, IEC
- Model Number: GES-215KWH
- Minimum Order Quantity: 1
- Packaging Details: Container
- Supply Ability: 200 Units/Month

Product Specification

- Warranty: Varies Depending On Model
- Communication Interface: RS485, Ethernet
- Battery: LiFePo4 - 100Ah
- Rated Grid Voltage: AC400V
- Operating Temperature: -10~50 Degrees Celsius
- Hvac: Yes
- Technology: Lithium-ion Battery
- Power Output: Varies Depending On Model
- Highlight: **RS485 BESS Battery Energy Storage System, Celsius BESS Battery Energy Storage System**

Product Description

Product Description:

The BESS Battery Energy Storage System is a cutting-edge solution that revolutionizes the way we store and utilize energy. With its superior HVAC system, this product ensures optimal performance and longevity even in challenging environments.

Designed specifically for energy storage applications, the BESS Battery is a reliable and efficient choice for both residential and commercial use. Its innovative technology allows for seamless integration into existing energy systems, providing a sustainable and cost-effective solution for storing excess energy.

When it comes to shipping, the BESS Battery Energy Storage System is conveniently packaged in a container, making transportation and installation a breeze. This ensures that customers can easily receive and set up their energy storage station without any hassle.

The capacity of the BESS Battery varies depending on the model chosen, allowing customers to select the option that best suits their energy storage needs. Whether you require a smaller capacity for residential use or a larger capacity for commercial applications, there is a BESS Battery model to accommodate your requirements.

Furthermore, the dimensions of the BESS Battery also vary depending on the model, providing flexibility in terms of installation and space requirements. Whether you have limited space or ample room for a larger system, the BESS Battery Energy Storage System can be tailored to fit your specific needs.

In conclusion, the BESS Battery Energy Storage System is a high-quality product that offers superior performance, reliability, and flexibility for energy storage applications. With its advanced HVAC system, convenient shipping in a container, variable capacity options, and adaptable dimensions, the BESS Battery is a top choice for those seeking an efficient and effective battery energy storage solution.

Features:

Product Name: BESS Battery-Energy Storage System

Battery: LiFePo4 - 100Ah

Shipping: Battery In The Container

Module: 51.2V 105AH

Application: Energy Storage

Technology: Lithium-ion Battery

Technical Parameters:

Power Output	Varies Depending On Model
Capacity	Varies Depending On Model
Rated Grid Voltage	AC400V
Weight	Varies Depending On Model
Module	51.2V 105AH
Battery	LiFePo4 - 100Ah
Shipping	Battery In The Container
Pcs Power	50-500KW
Operating Temperature	-10~50 Degrees Celsius
Dimensions	Varies Depending On Model

Applications:

The QIYUAN BESS Battery Energy Storage System (Model: GES-215KWH) is a cutting-edge energy storage solution designed to meet a variety of application occasions and scenarios. Manufactured in China, this advanced system is certified under UN38.3 and IEC standards, ensuring top-notch quality and safety.

With a minimum order quantity of just 1 unit and packaging details in a container, the QIYUAN BESS Energy Storage System offers flexibility and convenience for customers looking to implement energy storage solutions. The supply ability of 200 units per month ensures a steady availability of this innovative product.

Depending on the specific model chosen, the capacity and dimensions of the QIYUAN BESS Battery Energy Storage System may vary, providing options to suit different requirements and spaces. The operating temperature range of -10 to 50 degrees Celsius allows for reliable performance in various environmental conditions.

Shipping the battery in a container makes transportation secure and efficient, ensuring that the product reaches customers in optimal condition. The module of 51.2V 105AH further enhances the performance and reliability of the QIYUAN BESS Energy Storage System. Whether for residential, commercial, or industrial use, the QIYUAN BESS Battery Energy Storage System is a versatile and reliable solution for storing and managing energy efficiently. It can be deployed in a wide range of scenarios, including off-grid applications, peak shaving, load shifting, and backup power.

Overall, the QIYUAN BESS Battery Energy Storage System is a high-quality product that offers a range of features and benefits to meet the diverse needs of customers seeking a dependable energy storage solution.

Customization:

Product Customization Services for the BESS Battery Energy Storage System: -----

- Brand Name: QIYUAN
- Model Number: GES-215KWH
- Place of Origin: China
- Certification: UN38.3, IEC
- Minimum Order Quantity: 1
- Packaging Details: Container
- Supply Ability: 200 Units/Month
- Capacity: Varies Depending On Model
- Dimensions: Varies Depending On Model
- Shipping: Battery In The Container
- Pcs Power: 50-500KW
- Hvac: Yes

Keywords: Battery Energy Storage System, Commercial Battery Storage Systems, Commercial Energy Storage Systems

Support and Services:

The BESS Battery Energy Storage System offers comprehensive Product Technical Support and Services to ensure optimal performance and customer satisfaction. Our team of experts is available to provide assistance with installation, maintenance, troubleshooting, and any other technical queries that may arise. We are committed to delivering top-notch support to help you maximize the benefits of your BESS system.

Packing and Shipping:

Product Packaging: -----

The BESS Battery Energy Storage System is carefully packaged to ensure safe delivery. Each component is securely wrapped and placed in a sturdy cardboard box with ample cushioning to prevent any damage during transit.

Shipping:

We offer fast and reliable shipping for the BESS Battery Energy Storage System. Your order will be processed promptly, and you will receive a tracking number to monitor the delivery status. We partner with trusted carriers to ensure that your product arrives on time and in perfect condition.
