

Shipping Container Battery Advanced LiFePo4 Technology for Varying Models of Industrial and Commercial Energy Storage System

Our Product Introduction

for more products please visit us on batteriesback-up.com

Basic Information

- Place of Origin: China
- Brand Name: QIYUAN
- Certification: UN38.3, IEC
- Model Number: GES-215KWH
- Minimum Order Quantity: 1
- Packaging Details: Container
- Supply Ability: 200 Units/Month

Product Specification

- Battery: LiFePo4 - 100Ah
- Weight: Varies Depending On Model
- Operating Temperature: -10~50 Degrees Celsius
- Capacity: Varies Depending On Model
- Pcs Power: 50-500KW
- Application: Energy Storage
- Rated Grid Voltage: AC400V
- Shipping: Battery In The Container
- Highlight: **LiFePo4 Shipping Container Battery,
Commercial Shipping Container Battery,
Industrial Shipping Container Battery**

Product Description

Product Description:

Designed with versatility in mind, the BESS Battery Energy Storage System comes in various models with weights and dimensions that can be customized to suit your specific requirements. Whether you are looking for a compact system for residential use or a larger-scale solution for commercial applications, the BESS Battery Energy Storage System has you covered.

Shipping the BESS Battery Energy Storage System is hassle-free, as it comes securely packaged in a container for safe transportation. This ensures that your product arrives in perfect condition, ready to be installed and put to use.

The heart of the BESS Battery Energy Storage System is its powerful LiFePo4 battery, which offers a capacity of 100Ah. This high-performance battery is known for its durability and longevity, making it a reliable choice for your energy storage needs. With the LiFePo4 battery at its core, the BESS Battery Energy Storage System delivers exceptional performance and efficiency.

At the core of the BESS Battery Energy Storage System is cutting-edge lithium-ion battery technology. This advanced technology provides reliable and efficient energy storage, ensuring that you have a consistent power supply whenever you need it. With the latest lithium-ion battery technology, the BESS Battery Energy Storage System is a top-of-the-line solution for your energy storage needs. Whether you are looking to store energy for residential, commercial, or industrial use, the BESS Battery Energy Storage System is a versatile and reliable choice. With its customizable weight and dimensions, secure shipping in a container, high-capacity LiFePo4 battery, and advanced lithium-ion battery technology, the BESS Battery Energy Storage System is the perfect solution for all your energy storage needs.

Invest in the BESS Battery Energy Storage System today and experience the benefits of a top-of-the-line energy storage system that delivers exceptional performance and reliability. With its innovative design, advanced technology, and customizable options, the BESS Battery Energy Storage System is the ideal choice for residential, commercial, and industrial applications.

Features:

Product Name: BESS Battery Energy Storage System

Shipping: Battery In The Container

Dimensions: Varies Depending On Model

Module: 51.2V 105AH

Technology: Lithium-ion Battery

Application: Energy Storage

Technical Parameters:

Power Output	Varies Depending On Model
Pcs Power	50-500KW
Battery	LiFePo4 - 100Ah
Operating Temperature	-10~50 Degrees Celsius
Warranty	Varies Depending On Model
Communication Interface	RS485, Ethernet
Shipping	Battery In The Container
Dimensions	Varies Depending On Model
Technology	Lithium-ion Battery
Rated Grid Voltage	AC400V

Applications:

QIYUAN's BESS (Battery Energy Storage System) with model number GES-215KWH is a cutting-edge solution for various energy storage needs. Made in China, this system is certified with UN38.3 and IEC standards, ensuring top-notch quality and safety.

The versatile applications of the QIYUAN BESS GES-215KWH make it suitable for a wide range of scenarios. Its compact design and scalable power capacity ranging from 50-500KW make it ideal for both residential and commercial use.

Whether for backup power during outages, peak shaving to reduce electricity costs, or integrating renewable energy sources like solar or wind power, this Energy Battery Storage system offers reliable performance and efficiency.

With a minimum order quantity of just 1 unit and packaging details in containers, the QIYUAN BESS GES-215KWH is easily accessible for customers looking to invest in energy storage solutions.

The supply ability of 200 units per month ensures a steady availability of this innovative ESS Energy Storage System in the market. The dimensions of the system vary depending on the model, providing flexibility for installation in different spaces.

Equipped with LiFePo4 batteries with a capacity of 100Ah, the QIYUAN BESS GES-215KWH guarantees long-lasting performance and reliability. The inclusion of HVAC ensures optimal temperature control, further enhancing the efficiency and lifespan of the system.

Overall, the QIYUAN BESS GES-215KWH is a state-of-the-art Battery Energy Storage Station that caters to diverse energy storage needs, offering a reliable, scalable, and efficient solution for both residential and commercial users.

Customization:

Product Customization.Services for the BESS Battery Energy Storage System: -----
Brand Name: QIYUAN
Model Number: GES-215KWH
Place of Origin: China
Certification: UN38.3, IEC
Minimum Order Quantity: 1
Packaging Details: Container
Supply Ability: 200 Units/Month
Technology: Lithium-ion Battery
Battery: LiFePo4 - 100Ah
Weight: Varies Depending On Model
Power Output: Varies Depending On Model
Rated Grid Voltage: AC400V

Support and Services:

The BESS Battery Energy Storage System product offers comprehensive Product Technical Support and Services to ensure optimal performance and user satisfaction. Our technical support team is dedicated to assisting customers with any product-related inquiries, troubleshooting, and maintenance needs. Additionally, we provide regular software updates, training programs, and on-site services to help customers maximize the benefits of their BESS system.

Packing and Shipping:

Product Name: BESS Battery Energy Storage System
Description: The BESS Battery Energy Storage System is a state-of-the-art energy storage solution designed to store electricity for later use. It is perfect for residential, commercial, and industrial applications.
Features:
High energy density
Long cycle life
Fast charging capability

Package Includes:
BESS Battery Energy Storage System
Installation manual
Warranty information

Shipping Information:
Shipping Method: Standard Shipping
Shipping Cost: \$XX.XX
Estimated Delivery Time: X-X business days
