

## Varies Depending On Model Commercial Energy Storage Systems with LiFePo4 Battery 100Ah

### Our Product Introduction

for more products please visit us on [batteriesback-up.com](http://batteriesback-up.com)

#### Basic Information

- Place of Origin: China
- Brand Name: QIYUAN
- Certification: UN38.3, IEC
- Model Number: GES-215KWH
- Minimum Order Quantity: 1
- Packaging Details: Container
- Supply Ability: 200 Units/Month

#### Product Specification

- Communication Interface: RS485, Ethernet
- Operating Temperature: -10~50 Degrees Celsius
- Battery: LiFePo4 - 100Ah
- Weight: Varies Depending On Model
- Rated Grid Voltage: AC400V
- Application: Energy Storage
- Power Output: Varies Depending On Model
- Shipping: Battery In The Container
- Highlight: **100Ah Commercial Energy Storage Systems, LiFePo4 Battery Commercial Energy Storage Systems**

Product Description:

The BESS Battery Energy Storage System is an industrial and commercial energy storage system designed for efficient energy storage and management. This cutting-edge system features a powerful LiFePo4 battery with a capacity of 100Ah, ensuring reliable and long-lasting performance for a wide range of applications.

Shipping in a container, the BESS Battery Energy Storage System is easy to transport and install, making it an ideal solution for commercial and industrial energy storage needs. The system's versatile dimensions, which vary depending on the model, allow for flexible installation in a variety of settings.

With a Pcs Power ranging from 50 to 500KW, the BESS Battery Energy Storage System offers exceptional power output to meet the demands of various energy storage applications. Whether used for commercial energy storage or industrial energy management, this system provides reliable and efficient performance.

Designed as an all-in-one energy storage system, the BESS Battery Energy Storage System is equipped to handle the challenges of modern energy storage requirements. Its robust construction and advanced technology make it a reliable choice for businesses looking to optimize their energy usage and reduce costs.

Whether used for commercial energy storage or industrial energy management, the BESS Battery Energy Storage System offers a comprehensive solution for businesses seeking to enhance their energy efficiency. With its high-quality components and advanced features, this system is a reliable and cost-effective choice for a wide range of applications.

Overall, the BESS Battery Energy Storage System is a versatile and efficient solution for industrial and commercial energy storage needs. With its durable LiFePo4 battery, convenient shipping in a container, variable dimensions, and powerful Pcs Power output, this system is an ideal choice for businesses looking to optimize their energy usage and improve their overall energy management.

Features:

Product Name: BESS Battery Energy Storage System -----

Rated Grid Voltage: AC400V

Battery: LiFePo4 - 100Ah

Shipping: Battery In The Container

Pcs Power: 50-500KW

Dimensions: Varies Depending On Model

Technical Parameters:

Weight	Varies Depending On Model
Communication Interface	RS485, Ethernet
Dimensions	Varies Depending On Model
Battery	LiFePo4 - 100Ah
Power Output	Varies Depending On Model
Technology	Lithium-ion Battery
Module	51.2V 105AH
Rated Grid Voltage	AC400V
Application	Energy Storage
Capacity	Varies Depending On Model

Applications:

QIYUAN's GES-215KWH Battery Energy Storage System is a cutting-edge solution that caters to various Product Application Occasions and Scenarios in the field of commercial energy storage systems. With its origins in China, this system boasts certifications such as UN38.3 and IEC, ensuring top-notch quality and reliability.

Designed for commercial battery storage systems, the GES-215KWH model is versatile and can be utilized in a multitude of scenarios. Whether it's for grid stabilization, load shifting, peak shaving, or renewable integration, this energy storage system battery offers a robust and efficient solution.

With a rated grid voltage of AC400V and utilizing lithium-ion battery technology, the QIYUAN GES-215KWH system provides a reliable and high-performance energy storage solution. Its HVAC system ensures optimal temperature control, further enhancing its efficiency and longevity.

The GES-215KWH Battery Energy Storage System comes with varying dimensions to suit different application requirements. Whether it's a small-scale installation or a larger commercial project, the flexibility in sizing makes it a versatile choice for different scenarios.

Customers can benefit from the flexibility offered by QIYUAN's minimum order quantity of 1 unit, making it accessible for various project sizes. The packaging details in containers ensure safe transportation and delivery of the systems, while the supply ability of 200 units per month guarantees timely availability.

Furthermore, the warranty duration varies depending on the specific model, providing customers with peace of mind regarding the longevity and performance of their investment in this advanced energy storage system. Overall, the QIYUAN GES-215KWH Battery Energy Storage System is a reliable and efficient choice for a wide range of commercial energy storage applications.

Customization:

Product Customization Services for the BESS Battery Energy Storage System: -----  
Brand Name: QIYUAN  
Model Number: GES-215KWH  
Place of Origin: China  
Certification: UN38.3, IEC  
Minimum Order Quantity: 1  
Packaging Details: Container  
Supply Ability: 200 Units/Month  
Warranty: Varies Depending On Model  
Dimensions: Varies Depending On Model  
Weight: Varies Depending On Model  
Application: Energy Storage  
Technology: Lithium-ion Battery

Support and Services:

The Product Technical Support and Services for the BESS Battery Energy Storage System include: -----  
- Installation guidance and support  
- Troubleshooting assistance  
- Regular maintenance recommendations  
- Monitoring and performance optimization services

Packing and Shipping:

Product Packaging: -----  
The BESS Battery Energy Storage System is carefully packaged to ensure safe delivery to our customers. Each unit is securely wrapped in protective materials and placed in a sturdy cardboard box. The packaging is designed to prevent any damage during transportation and handling.  
Shipping:  
We offer worldwide shipping for the BESS Battery Energy Storage System. Our shipping partners are reliable and experienced in handling delicate electronic equipment. Once your order is processed, the product will be shipped promptly to your desired location. You can track your shipment using the provided tracking number to monitor its delivery status.
