

Customizable BESS Battery Energy Storage System Varies Depending On Model Voltage for Your Business

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: QY
- Certification: UN38.3, IEC
- Model Number: GES100KW-215KWH
- Minimum Order Quantity: 1
- Packaging Details: Container
- Supply Ability: 200 Units/Month

Product Specification

- Fire System: Yes
- Communication Protocol: Modbus, CAN, Ethernet
- Certifications: CE, UL, TUV
- Cycle Life: Up To 6,000 Cycles
- Function: Backup Power, Peak Load Shifting
- Application: Renewable Energy Integration, Grid Stabilization, Backup Power
- Capacity: Varies Depending On Model
- Efficiency: Up To 98%
- Highlight: **customizable BESS battery storage system, BESS energy storage with warranty, business battery storage system**

Product Description

Customizable BESS Battery Energy Storage System Varies Depending On Model Voltage for Your Business

Product Description

The BESS Battery Energy Storage System is a cutting-edge solution designed to meet the growing demand for efficient and reliable energy storage. This all-in-one energy storage system offers exceptional performance and versatility, making it ideal for a wide range of applications, including renewable energy integration, grid stabilization, and backup power.

With dimensions that vary depending on the model, the BESS Battery Energy Storage System can be easily customized to fit the specific needs of any project. Whether you require a compact solution for a residential installation or a larger system for a commercial application, the BESS Battery Energy Storage System has you covered.

One of the key features of the BESS Battery Energy Storage System is its flexibility in voltage options, which also vary depending on the model. This allows for seamless integration into existing systems and ensures optimal performance across a variety of scenarios.

When it comes to certifications, the BESS Battery Energy Storage System boasts top-notch credentials, including CE, UL, and TUV certifications. These certifications underscore the system's compliance with industry standards and regulations, giving you peace of mind knowing that you are investing in a high-quality and reliable product.

At the heart of the BESS Battery Energy Storage System is a cutting-edge LiFePo4 battery, known for its exceptional performance, longevity, and safety. This advanced battery technology ensures reliable operation and efficient energy storage, making the BESS Battery Energy Storage System an ideal choice for both residential and commercial energy storage systems.

Whether you are looking to integrate renewable energy sources, stabilize the grid, or secure backup power for your facility, the BESS Battery Energy Storage System is the perfect solution. Its innovative design, customizable options, and top-notch certifications make it a standout choice for all your energy storage needs.

Key Features

- **Product Name:** BESS Battery Energy Storage System
- **Communication Protocol:** Modbus, CAN, Ethernet
- **Voltage:** Varies Depending On Model
- **Dimensions:** Varies Depending On Model
- **Application:** Renewable Energy Integration, Grid Stabilization, Backup Power
- **Certifications:** CE, UL, TUV

Technical Parameters

Capacity	Varies Depending On Model
Warranty	2 Years
Model	Energy Storage System
Fire System	Yes
Battery	LiFePo4
Cycle Life	Up To 5,000 Cycles
Ess Container	20ft
Application	Renewable Energy Integration, Grid Stabilization, Backup Power
Voltage	Varies Depending On Model
Efficiency	Up To 98%

Applications

The QY BESS Battery Energy Storage System, model number GES100KW-215KWH, is a versatile and reliable energy storage solution suitable for a wide range of application occasions and scenarios. With its place of origin in China, this product is designed to meet the highest standards of quality and performance, having obtained certifications such as UN38.3 and IEC.

This BESS Battery Energy Storage System is ideal for various industries and settings, including commercial buildings, industrial facilities, renewable energy projects, utility-scale applications, and microgrid installations. Its robust design and advanced features make it a valuable asset for applications requiring energy storage, backup power, load shifting, and peak shaving capabilities.

Customization

Product Customization Services for the BESS Battery Energy Storage System:

- **Brand Name:** QY
- **Model Number:** GES100KW-215KWH
- **Place of Origin:** China
- **Certification:** UN38.3, IEC
- **Minimum Order Quantity:** 1
- **Packaging Details:** Container
- **Supply Ability:** 200 Units/Month
- **Dimensions:** Varies Depending On Model
- **Battery:** LiFePo4
- **Capacity:** Varies Depending On Model
- **Certifications:** CE, UL, TUV
- **Efficiency:** Up To 98%

Support and Services

The BESS Battery Energy Storage System product offers comprehensive Product Technical Support and Services to ensure the smooth operation and maintenance of the system. Our dedicated team of experts is available to provide assistance with installation, configuration, troubleshooting, and ongoing support.

We also offer training programs to help users maximize the benefits of the BESS system and stay updated on the latest features and upgrades. Our technical support and services aim to minimize downtime, optimize system performance, and enhance overall user experience.
